PROFILE

Passionate and driven Java Developer with foundational experience in developing and maintaining back-end systems using Core Java and SpringBoot functionalities. Seeking an internship or working student position to leverage my technical skills and academic knowledge in a collaborative environment while contributing to impactful software solutions.

SKILLS

- **Programming Languages :** Core Java, JavaScript, C/C++, OOP
- **Frameworks :** SpringBoot, React, Hibernate, JPA, Maven
- **Web Technologies :** HTML, CSS, Bootstrap, Tailwind CSS, Thymeleaf, Figma
- **Database Management :** PostgreSQL, MySQL, MongoDB
- **Version Control :** Git
- **Soft Skills :** Rapid Learning Abilities, Strong Problem-solving skill, TeamWork

EDUCATION

M.Sc. in Computer Science   **April 2024 - Present**
IU International University of Applied Sciences, Berlin, Germany

Bachelor of Computer Application (BCA)   **June 2019 - March 2022**
Veer Narmad South Gujarat University, Surat, Gujarat, India

PROFESSIONAL EXPERIENCE

JUNIOR SOFTWARE ENGINEER   **May 2022 - June 2023**
THE MAGIC DEV | Mumbai, India

- Assisted in the development and maintenance of Java-based web applications, focusing on back-end tasks with Core Java and basic SpringBoot functionalities.
- Enhanced application responsiveness by creating and optimizing front-end components with HTML, CSS, and JavaScript.
- Implemented RESTful APIs, ensuring seamless integration across multiple modules.
- Collaborated with the team using Git for basic version control and code management.

PROJECTS

1. Trading Platform

- Developed a trading platform using Java Spring Boot for the back-end and React for the front-end.
- Implemented secure user authentication and enabled real-time stock trading functionality.
- Designed a trend visualization dashboards and integrated external APIs for live stock updates.

2. Smart Contact Manager 🐙

- Created a contact management system with advanced search and filtering functionalities.
- Implemented user authentication and access control to ensure secure data handling.
- Built the back-end using Spring Boot with MySQL for data storage and employed Thymeleaf for front-end rendering.

3. E-Commerce Web Application 🐙

- Developed a full-stack e-commerce platform using Spring Boot, H2 database, and Thymeleaf.
- Implemented user authentication, product management, and shopping cart features.
- Designed a responsive UI, ensuring cross-platform compatibility and a seamless user experience.

CERTIFICATES

- AWS Fundamentals Specialization
